Education

Ph.D. Candidate in Economics, Universidad Carlos III de Madrid *2021–Present*
Advisor: Juan Carlos Escanciano

M.Res. Economic Analysis, Universidad Carlos III de Madrid *2023*

B.E. Electronics and Instrumentation Engineering, BITS Pilani, Goa Campus *2019*

Research Fields

Primary: Microeconometrics, inequality measurement, semiparametric methods

Secondary: Distributional statistics, machine learning, development economics

Job Market Paper

The Anatomy of Wage Compression: Locally Robust Inference for Conditional Inequality and Exact Decomposition

An aggregate decline in wage inequality does not reveal whether wages converged across worker types or became more equal among comparable workers. I develop locally robust estimation and inference for conditional Theil inequality and the aggregate within–between decomposition, accommodating rich worker, job, and employer characteristics through flexible machine-learning first stages. Using Portuguese matched employer–employee data (2011–2019), I find that the between-component decline slightly exceeds the aggregate decline and is almost entirely captured when conditioning on worker and job characteristics alone. Despite a nearly unchanged aggregate within component, conditional dispersion generally falls among non-college workers, particularly among high-school and some-college workers at employers more exposed to the 2014 minimum-wage increase. College-educated men show little comparable decline. These descriptive findings reveal wage compression concealed by aggregate measures.

Research Software

GIReg: R package implementing Gini Index Regression methods.

Conferences

- 3rd III/LIS Comparative Inequality Conference at the London School of Economics, UK *(forthcoming)*. 2027.
- EEA–ESEM Congress at University College Dublin. 2026.
- Symposium of the Spanish Economic Association (SAEe) *(forthcoming)*. 2026.
- Annual Conference of the Indian Society of Labour Economics (ISLE) *(forthcoming)*. 2026.
- Econometrics Reading Group at the University of Mannheim. 2026.

Teaching

- **Universidad Carlos III de Madrid, 2021–2025.** Teaching Assistant for the courses:
  - ◇ Econometrics I (Ph.D. level), 2023–2025.
  - ◇ Econometrics (Bachelor level), 2023–2025.
  - ◇ Mathematics for Economics I (2024) and II (2022), Bachelor level.
  - ◇ Game Theory (Bachelor level), 2021–2022.
  - ◇ Economics II: Macroeconomics (Bachelor level), 2022.

Fellowships, Honors, and Awards

Beca FPI para la Formación de Doctores, Spanish Ministry of Science and Innovation *2023*

Finalist, Econometric Game, Amsterdam *2022, 2023*

Master's Scholarship, Banco Santander, Universidad Carlos III de Madrid *2021*

Other Professional Experience

Software Engineer, HSBC Limited, Pune, India *Jul. 2019–Aug. 2021*

Credit Risk Analyst, Deutsche Bank, Mumbai, India *Jun. 2018–Dec. 2018*

Research Consultant, WorldQuant *Sep. 2017–Jun. 2018*

Technical Skills and Languages

Programming and software: R, Python, Julia, Stata, C++, Java, Excel
Languages: Hindi (native), English (fluent), Spanish (beginner)
